→ New True 90° Shoulder Milling

High Positive Insert for Low Cutting Forces

Wide Grade and Geometry Range Covering Most Applications

For facing, slotting, side milling, ramping, helical ramping

* New YG612 Grade

20% better tool life than the existing grade in various materials from carbon steel to mold steel.

▶ High helix cutting edge

Smooth cutting and low cutting force

▶ High positive rake

minimized burr

▶ New design of curved cutting edge

Minimized mismatch at step machining

▶ Wide wiper edge

Excellent surface finish
