A Brand A-Drills

OSG's Advance Performance Carbide Drills

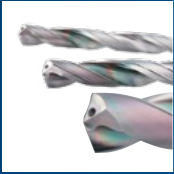

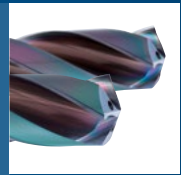

A Brand AD Series

The A Brand AD drills are OSG's premium line of solid carbide high performance drills, designed for Ferrous and Non-Ferrous Materials with higher drilling speeds and incredible tool life.

A Brand ADO-TRS Series

The A Brand ADO-TRS series is OSG's advanced performance coolant-through, 3-flute, carbide drills. Up to 3X faster than 2-flute drills and up to 3X longer life.

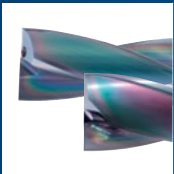

A Brand ADO Series

The A Brand ADO drill series is OSG's premium line of coolant-through carbide drills designed to drill in a variety of steels up to 50X diameter without pecking.

A Brand ADO-MICRO Series

The A Brand ADO-MICRO is ideal for drilling in a variety of materials with a double margin for straight drill direction and large volume oil holes for superior chip evacuation.

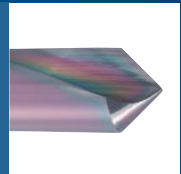

A Brand ADF Series

The A Brand ADF Series are high performance carbide flat drills designed for various applications.

A Brand AD-LDS Series

A Brand AD-LDS is an Advanced Performance Carbide Spot Drill. EgiAs coating suppresses friction with the wear resistance layer and a unique cutting geometry for sharpness and chipping resistance.

A Brand ADO-SUS Series

A premium line of carbide coolant-fed drills, designed to drill in stainless steel. OSG's "Mega Cooler" coolant hole shape improves coolant flow, chip evacuation and cutting heat generation.
